Why do you Volunteer with the CHARGE Syndrome Foundation?

The Foundation has supported our family since Dylan was born.

My experience is the need for information, connection, and resources never goes away.

I am excited to now share these supports with the families in our state.

What activities do you like to do?

Dylan loves planets, rockets, and space shuttles.

He enjoys geography and travel, especially if it involves talking about or visiting his siblings.

He is an excellent horseman, and swimmer and drives a mobility scooter.

He enjoys sewing quilts, using power tools, going for walks, going to the Planetarium, and to the book store.

Like the rest of our family, Dylan enjoys rooting for the Chicago Cubs.
