

ILLINOIS & MILITARY

CHARGE Syndrome Family Liaisons

Thornton & Ana Gallimore

We are a military family, which often requires frequently relocating and rebuilding a new support network. We're currently stationed at Scott AFB, IL. Max, 1, is our only child and we work tirelessly to connect him with the resources and care that he needs; this is common to us all in the CHARGE community! We're excited to help families identify and access all of their special needs goals and resources.

Our family enjoys playing at home, helping others, cooking and occasionally traveling. We also enjoy the outdoors such as hiking, fishing and archery.

We are passionate about people working together to support one another. Building strong bonds for family support is an essential part of optimizing special needs care. Our families all live very unique lives and we can learn from each and every one of their experiences.

You Can Watch The Clouds Float by, Or You Can Fly ABOVE Them
