

Do you get dizzy?

Does your heart
beat really fast?

Does the hot
weather bother
you?

Are you often
really tired?

Have you ever heard of
POTS?

We want to know about your experience with these symptoms. We will be conducting research during the International CHARGE Syndrome Conference.

If you want to know more, check us out through Research Central, or get in contact with study lead, Julia Morrison at julia.morrison@dal.ca
